

COMPLAINTCA

"Justice is the source of all the other virtues." — the front door to justice for every Canadian.

- CANADA-WIDE
- ANONYMOUS
- AI ROUTING
- 7 LANGUAGES

THE OPPORTUNITY

Canadians file complaints against businesses, landlords, employers, and government through a maze of fragmented regulators — with no anonymity, no AI assistance, and no unified way to track outcomes. ComplaintCA is the AI-powered consumer layer that makes filing, routing, and resolving a complaint take minutes, not months.

BUSINESS MODEL

Free for consumers. Monetized via premium AI verification, legal/clinic referral fees, and B2G licensing of the intake & triage engine to municipalities and regulators.

WHY NOW

Sector complaint volumes are rising nationwide (e.g. CCTS telecom/TV complaints +17% YoY, 2024–25) while legal-tech capital is flowing at record levels (Clio's \$850M raise, Q4 2025) — but almost none of it targets the consumer side.

MOM GROWTH

THE ASK

Raising **[\$X] [pre-seed/seed]** to expand national coverage, scale AI verification, and grow our legal-clinic partner network. Runway to **[milestone]: [X months]**.

"Justice is the source of all the other virtues." We built ComplaintCA on the belief that access to it shouldn't depend on how much time, money, or legal literacy you have.

— MARCUS AURELIUS, AND THE FOUNDING IDEA BEHIND COMPLAINTCA

NEXT STEP

We're looking for investors who can help us open doors with legal, insurance, and municipal partners across Canada — not just capital. Deck, data room, and a live demo available on request.
